Novelty Turning Co.
At Steep Falls.
W. G. Brown of the Novelty Turning Co. of Fitchburg, Mass., and his foreman A. Nadeau arrived here Friday afternoon.
Several car loads of machinery and birch stock came later, and on Monday the machinery was being put into the mill at the Falls. It will be a number of days before they get the machinery in operation, but they are getting it running as quickly as possible.
Mr. Brown has contracted with C. H. Adams to build a store house 40x70 12-foot post. This is to be located nearly opposite the mill. Work has already commenced on it.
Mr. Brown is pleased with the mill and the way in which it has been repaired. He is to put in a boiler for steam and power so as to use up the shavings and waste wood in the mill.
They are pushing the work as fast as possible but it will be some weeks before they get it running.

Norway & Western Railroad.
Judge Strout of Portland of the Supreme Court of Maine has become convinced that the Oxford Central Electric Railroad and its charter granted in 1897 has been forfeited or the road abandoned and has issued a decree to that effect.
This wipes out that corporation and leaves the way clear for a charter to be granted to the Norway & Western Co.
W. G. Rand and Attorney Wilson were in Augusta, Wednesday, and filed the location for their road with the Railroad Commissioners, who will soon order notice published and grant a hearing.
As soon as this is done the work of building the road will be commenced.

Big Minstrel Show.
Gorton's Minstrels will appear at Norway Opera House, Saturday evening, Aug. 26.
Gorton's Minstrels are, by no means, strangers to Norway as they have appeared here on many previous occasions, their performances having always been classed among the best. The addition this season of many high class specialties of a novel and interesting character insures a performance satisfactory and pleasing in all details. Among the notable features is the star setting of the "first part," representing a tropical scene in Florida, with the magnificent Ponce De Leon Hotel in the background. Rich and elegant costumes add still further to the beauty of this incomparable stage picture. The entire company is composed of capable performers, each one selected with special reference to his ability. The comedy, music, and various specialties are said to be high class in every respect. The present opinions in the various cities where this organization has recently appeared, are of a very favorable character, and there is every indication that the performance is all that is representative to be.

Won by Oxford.
Saturday's Ball Tournament at the Fair Grounds a Great Success.
The Ball Tournament, Saturday, was well patronized both morning and afternoon, the forenoon game drawing a fine attendance and the afternoon a most excellent crowd. The teams were very closely matched. Radcliffe and Hebron being strongest and making a fine showing, the latter losing the afternoon game by the merest chance. Bryant's Pond went to pieces in the last game and put up no kind of a game.
Bryant's Pond 3, Radcliffe 1.
The first game started at just before eleven o'clock and was a contest from start to finish. The batteries were Currier and Beards, and for Norway, Shaw and Hebron, now of the Seaside of Old Orchard, his catcher being King of a Lynn team. Neither pitcher passed a batter or hit a man during the game. Bad errors lost the game for Radcliffe in the eighth inning.
Scores by Innings:
Bryant's Pond.....0 0 0 0 0 0 2 0-3
Radcliffe.....0 0 0 0 0 0 0 0-0
Batteries—Currier and Beards, Shaw and King. Umpires—Moody and Tolman.

Oxford & Hebron 5.
The excellent fight by Hebron in the second game was the feature of the day. The batteries were Barrows of Portland and DeWolfe for Oxford and for Hebron Hall of Leavitt Institute and Carey. No bunting hits in the game, the fourth loose fielding gave Hebron their five runs. Oxford scored in the third, seventh, eighth, and with two out in the ninth, a bad error by Hebron let in two runs and lost the game, which was as fine a contest as the ever of the grounds.
Scores by Innings:
Oxford.....0 0 1 0 0 0 2 1-5
Hebron.....0 0 0 0 0 0 0 0-0
Batteries—Barrows and DeWolfe, Hall and Carey. Umpires—Shaw and Curtis.

Oxford 10, Bryant's Pond 0.
All teams have their off day and the second game of the afternoon was Bryant's Pond's off day. Currier went to pitch again. After the third inning his pitching was knocked all over the lot, an average of two runs to an inning being made. In the eighth Joe Farnum went in for him and finished the game. On the other hand Adams was right on his mettle, striking out seven, not passing or hitting a man and but one got third base, only four getting first. His support was fine.
Scores by Innings:
Oxford.....0 0 0 2 1 3 2 2-10
Bryant's Pond.....0 0 0 0 0 0 0 0-0
Batteries—Adams and DeWolfe, Currier and Beards. Umpires—Shaw and Curtis.

"I'm all out of horses," said Wm. T. Abbott of Boston, the other evening. "I don't own even a road horse—surely we've got some team horses but no roaders or trotters. I made so well on the last colt I bought that I concluded to go out of the business," said Mr. Abbott. "An other man and I bought a colt down in Connecticut and we made and kept it 11 months and sold it for \$6750 and felt we'd better quit the business and have done so." We are of the opinion, however, if Mr. Abbott saw a likely looking colt that could be bought at a fair price he would resume business in that line at once.

It was all-board for the picnic, Tuesday morning, and the members of Harry Rust Post and Relief Corps were promptly on hand to go to the cottage of Albert Farnum on the shore of North pond. About a hundred people were there, and there was an equal number from the immediate neighborhood. A very fine dinner was served. The most noticeable and perhaps choicest dish was of beans baked in the ground, which veterans declared was the best they had ever eaten. There were many other eatables and no one went hungry. Plenty of time was spent in eating. Many enjoyed boating on the pond and many pond lilies were gathered. No set speeches were made and no formal entertainment provided, the guests didn't need any to have a fine time.

Simson Frost, railroad engineer of Gallup, New Mexico, is visiting his brother James B. Frost and other relatives in Norway and vicinity. During his stay here Mr. Frost, his brother and Vesta Frost made a trip to Portland and Saco. In the former city they visited the battle ships Kearsarge, Missouri, Kentucky and flag ship Maine. They also visited the Maine State Armory, the vessels a sight worth seeing, and very instructive. Sunday afternoon was spent at Old Orchard Beach where they saw the immense sea serpent, recently washed ashore in the desert there, for the purpose of a heavy coat of hair and an evidence also of wings is visible, with legs fourteen feet in length. As it was impossible to remove parts of the flesh with even the sharpest axes quick-time. The weight of the upper jaw was estimated at one and one half tons' and total weight seventy tons. The composition of the bones closely resembles ivory. It is estimated that the animal was one thousand years old when it died. Judging from parts existing together with those missing it must have been nearly one hundred feet in length. Scientists from different parts of the world have viewed these remains, give their opinion that it must have existed in the middle-life era which might be ten or thirty million years ago. The giant mammal represents seven prehistoric reptiles in one and has been preserved in the glaciers of the Arctic regions.

Thursday evening, the Rev. and Mrs.

party by the numerous guests. A deli-
cious repast was served in their home-
like camp, which was highly enjoyed by
all, and the evening passed pleasantly
by Mrs. Correll offering recitations and
Miss Cleveland rendered a beautiful
poem entitled "Will the Dog Bite." The
title did not signify its meaning but its
pathos was almost lost with the humor-
ous and cherished wit scattering through
all the 22 verses. Ernst Christie amu-
sed the gathering with one of his many
original recitations of "The Mother's Par-
ty" or "Who Stole the Blackberry Pie."
His success was helped materially
by the versatile Miss Karcher in a hand-
some white gown trimmed with ras-
pberry dots. Her string of pearls was
much admired, especially so as they
were presented to her by one of the royal
family of Prussia, while abroad last win-
ter.

Mrs. D. LITTLE AND FAMILY.

HARRISON.
In the Parade.
In the report of Harrison Centennial,
Mrs. N. F. Blanchard was credited with
having three teams in the parade instead
of four. The mistake came about
through the correspondent not learning
that the hayrack was also from Meadow-
brook Villa. Many summer residents
interested themselves in the Centennial
celebration of the town but notably Mrs.
Blanchard, whose assistance contributed
so largely to the success of the parade.
Therefore we are glad to be able to give
the following accurate description of this
part of the parade.
Mrs. N. F. Blanchard of Meadowbrook
Villa entered four teams in the parade.
The first, a single buckboard drawn by a
large gray, was draped with stars and
stripes and carried Uncle Sam (E. J.
Wood) back of him stood the Goddess of
Liberty (Mrs. Julian H. Walter) George
Ader, driver.
Second team, a two-seated buckboard,
was draped in white and drawn by a
large bay. Mrs. Blanchard with Mrs. D.
O. Blanchard rode here in grey gowns.
H. Cobb, driver.
Third team, two-seated buckboard
with rumber, was driven by M. E.
Blanchard in Highland in the morn-
ing, by a team of bays, was decorated in
green and yellow. Mrs. M. E. Blanchard
as Little Bo Peep and Harold M. Blanch-
ard as an American Indian, with J. H.
Walter on the rumber in a Chinaman's
costume filled this carriage.
Fourth team, a gaily decorated two-
horse hayrack; colors, pink and white.
The occupants were Mrs. A. J. Zabriske
as Contrary Mary; A. J. Zabriske and
M. E. Blanchard, jr., representing Mr.
and Mrs. Hayseon as Mother Goose;
Mother Goose; the three maids rode
here as a Japanese maid, Aunt Dinah
and a baby with her doll. Mr. Luck
drove.

Harrisons Won.
The Harrison base ball team played
two games at Naples, Saturday, and after
defeating Camp Katahdin in the morn-
ing game, took the afternoon game from
the Naples team and demonstrated their
superiority over the three other teams
entered in the tournament.
The morning game started badly for
Harrison but they quickly rallied and by
bitting Rector persistently won out
finally by the score of 12 to 6. Day
fanned 13 of the Katahdins and did not
allow a hit after the 4th inning.
Sears and Walker did the best work
for Harrison at the bat and in the field,
while Burgess and Budlong turned in
some exceptionally fast plays for Katah-
din. Fogg made two good stops of hard
hit ground balls and Campbell held
Day's pitching splendidly. The score:
Harrison.

The Hall Reunion met on Aug. 12 for
the eighth time since its organization,
at the home of George W. Pettengill, 22
Chute of Harrison. The day was per-
fect and little use was made of the house
for the spacious shady yard seemed to
be the favorite spot.
Dinner was served under the trees,
and 33 gathered about the heavily load-
ed tables.
A letter from Mrs. Rev. J. F. Smith,
an absent member, was read. In the
middle of the afternoon Miss Whitte-

pany, with readings, and a few hymns
were sung. Croquet amused a number

The train up last Sunday morning was
40 minutes late but an unusually large
and expectant congregation, which had
gathered at the Free Baptist church,
waited patiently for it to bring Jonas
Edwards of the Auburn City Mission
and his good wife. They were not dis-
appointed. Mr. Edwards spoke in a
plain, earnest way on the "Power of
God" and his manner showed his expe-
rience in the same. A. E. Marshall met
them at the station with surrey and span

Mrs. Sabina E. Shedd.

Mrs. Sabina E. Shedd, formerly of Norway, died at her son's, Dr. E. F. Stevens', at Seattle, Wash. Wednesday morning, Aug. 16. She was the daughter of Jacob and Sally King (Ripley) Bradbury, and was born in Norway, Dec. 15, 1822. She was the oldest of a family of twelve, five brothers and six sisters. One of the brothers was the late Dr. N. Bradbury of Norway. One of her sons, Wm. H. Stevens, lives in Portland and is a member of the firm of Loring, Short & Harmon, dealers in books and stationery.

Director for Berlin Brass Band.

Frank Knapp of Norway has been engaged as director of the Berlin Brass Band. The members of the band think themselves exceedingly fortunate in securing Mr. Knapp as a leader. He is a cornetist of talent and ability and has studied four years with Burnham in Portland and three years with Brown of Boston, two of the best instructors on the cornet in New England. He has been the successful leader of several bands and has been recently training the Odell band of Groveton. [Berlin Independent.]

Mrs. Enoch Rowe.

The death of Eva, wife of Enoch Rowe, occurred at her late home at the Walker House, North Bridgton, early Thursday morning, Aug. 17. The deceased was a native of Cornish, going to Bridgton from Norway about a year ago where she was connected with the Ginn House. She was about 37 years of age, and leaves of the immediate family besides her husband, a small son, Leslie. She is also survived by her father, A. R. Sanborn, and by a sister, Mrs. Euse, who resides at Norway. The death is a particularly sad one coming at this time for the reason that it was but a few months ago that the death of her mother occurred. Funeral services will be held at the late home and the remains taken to Cornish for interment.

Mrs. Rowe leaves a wide circle of friends and acquaintances in Norway, Cornish and other places.

Grand Chancellor, Morton L. Kimball, attended the Knights of Pythias field day at Lewiston, Thursday, the 17th. About 300 Knights were present.

Prof. B. W. Sanderson of the Limerick Academy is spending his vacation on the farm in Waterford. He will return there Sept. 1st, and begin his third year as principal of that school.

We have received from I. L. Loring, Troop F, Cav., at Batangas, P. I., two copies of The Manila Letter. This is a 10-page, six column daily paper and contains mostly news from the United States and other parts of the world, but little from the Philippine Islands if we except the advertising. One of the papers was of the issue of July 4th and they were making an observance of the day in Manila. Here are a few comments on the day editorially:—"Today is the anniversary all Americans love to celebrate and The American's staff will take a day off. As a result, there will be no issue to-morrow morning." "The Fourth of July committee should make its peace with the weatherman. He might be appeased and interested by appointing him on the general committee."

How Can Devos Do It?

Why, do you think, can Devos sell pure paint as low as others sell adulterated paint?

There are 80 or 40 or 50 different makers of paint, that paint in a way as "first-class" they have their regions; one's region is large, another's is small; every one is "first-class" in its region. Of these 80 or 40 or 50, one is best, another next, and so on down, but the prices are all the same or lower, but the same—you can buy one for less than another though; a personal matter some times.

But how, do you think, can Devos sell the best for no more than the rest? The answer is: it costs less to sell it; more to make, less to sell. Reputation helps sell it. Its 150 years help sell it. Go by the name.

Manilla Letter.

Troop F, Cav. Camp McGrath, Batangas, P. I., June, 1905.

I have received one copy of NORWAY ADVERTISER. No use to tell you how much I enjoy it.

I wrote you at San Francisco. Well, I must say what little I saw of that town I liked very much. But my, what hills! no wonder they use cable cars, most of them for transportation. The principal street seems to be Market street but I did not see any market on it, but "Frisco" is a very lively city.

Now about our trip to Manila on U. S. S. Sherman. On Tuesday, May 2, we went on board. There was the 9th Regiment of Infantry, 2d Squadron of 7th (E, F, G and H) of 7th Cavalry and cabin passengers making a total of 1500 people on board. At 12 noon we left the dock with the band playing "Home, Sweet Home." I guess there were a lot who wished they were at home. At 1 p. m., we passed Golden Gate and the pilot was taken off. At 2.30 p. m. we run land out of sight. There was many a man who gave his supper to the fish and some did not have time.

When we were out two days and the sea sickness was over, then each company of infantry and troop of cavalry had 20 minutes drill. We were awfully crowded for room, so crowded in fact drill had to be discontinued. But I must say that I never saw so smooth an ocean as the Pacific. It was just like Pennessawasset all the way to Manila.

On the morning of May 10th we sighted the island of Oahu. At 10 a. m. we passed the U. S. Army transport Logan with 13th cavalry on board. She had just left Honolulu for San Francisco. At 12.55 p. m. we landed at Honolulu. All the men had to march through the principal part of the city.

Honolulu is a very beautiful city, built very much as an American city. It has very beautiful parks and hotels, also a fine line of electric cars. One can go 80 miles for a nickel. The finest band I ever heard was the Honolulu band. It took second prize at the St. Louis Fair. It played for our benefit one night in the park. I saw and was in the Government Building, where once Queen Lili had her throne. It is now the Governor's Palace and the Senate and House of Representatives meet there.

There are a great many Japanese in Honolulu. They live mostly in one part of the city.

On Friday, May 12, at 11 a. m. we left for Guam, P. I. We were only out about three hours when a case of small pox was discovered and we had to put back to Honolulu. The doctor came and took the man off. It was a man who worked in the pantry. After a long delay, at 9 a. m., Saturday, May 13th, we again started for Guam.

On Friday, May 19, at 4 a. m., we crossed the 180 meridian, gaining one day. Latitude at noon, 20 degrees, 41 minutes, north; longitude, 175 degrees, 13 minutes east; distance from Honolulu, 1384 miles. I could give latitude and longitude of every day but I guess you would get sick of it.

After a fine passage of 13 days we arrived at Guam. It was there we saw three steamers (two Swedish, one English), one loaded with supplies for Russian Government. They had been there for six weeks, did not dare to go out because Japan's war ships were waiting for them. We also met the U. S. S. Supply, which is stationed at Guam.

Guam is an island about six miles wide and ten long, very mountainous and is used as a supply station by the United States. Angano is the name of the port we stopped at. All Guam is noted for that the United States sends prisoners there for life.

At 6 p. m. Friday, May 26, we left Guam for Manila and on May 31, at 1.30 p. m. we sighted land ahead and it proved to be Palapa in northern part of Samar Island. Latitude 12 deg. 10 min. north, longitude 125 deg. 10 min. east, and we then went into South Bernardino strait and at 3 p. m. we sighted the southern part of the island of Luzon, and we had land on both sides all the way to Manila. We also saw Batangas as we passed. On Friday, June 2, we anchored just outside of the breakwater at Manila. It was there we saw our Uncle Sam's war ships and quite a few of them were there.

The doctor came on board and much to my surprise found another case of small pox. So at 4.30 p. m. away we went to quarantine station, 25 miles down the bay, and there we all had to go ashore and stay one night while the ship was disinfected, as well as our baggage. You can imagine the 1500 men in place about room enough for 200. Well it was something awful and I do not want to go through it again. At last they were ready for us so on Sunday, June 4th, at 3.15 p. m. we left for Manila, arriving at 6.30 p. m.

The next morning we commenced unloading. What was our surprise to see within 200 yards from us and guarded by the U. S. S. Ohio, three Russian warships. Some one cried, "The United States is at war with Russia and has captured the battle ships." But come to find out they (the Russians) had put into Manila in a sinking condition and they surely looked it. I noticed one with her smoke stack shot half away and a big hole in her side. It seems they had just come from the engagement with the Japanese. There had been mutiny on board of one of them and all of the men were nearly starved. They also looked it. The wires between United States and Manila were kept pretty busy. At first the message came that the Russians could only stay 24 hours but as the ships were in such a bad state the board who sit on the case, Gov. Gen. Wright, Admiral Train and others, gave them 60 days to repair. But the commanding officers and an official telegram yesterday stating, "Russians would remain until end of war."

At Manila Companies E, F, G and H with headquarters, staff and band, 9th Infantry, went ashore and on Wednesday, June 7th, at 6 p. m. we left for Batangas and arrived at 6 a. m. the 8th and at 9.30 a. m. E, F, G and H of the 7th Cavalry bid good bye to our friends of the Sherman and 9th Infantry, and 15 minutes later we were on the shores of Luzon.

They put us in the band quarters vacated by 12th Cavalry band and there we had to stay under strict quarantine for four days. But for all of that we were glad to get off that Sherman and D Troop of the 12th Cavalry gave us a fine dinner. Capt. Caldwell of Troop D used to be in command of F Troop. He left us in 1902 in Cuba to go to the 12th Cavalry. Besides him a few of us had friends in Troop D, 12th.

Well, on 12th of June we moved to B Troop's, 12 Cavalry, quarters, and here we are, not quite settled but still in pretty fair condition. Up to date, not a

man is sick or in the guard house, something unusual in army.

Batangas is about 90 miles from Manila, on South Bernardino strait, it is on a small bay and to land one must go ashore in boats, as there is no wharf. We are about two miles from the bay. The name of the post is Camp McGrath, as yet I cannot tell much about this place as I have not been here long enough to see but very little, but in my next letter I will give you a better description of the place.

There is a great deal of talk about the Ladrone, but one of the leaders was killed the other day and proved to be a woman in men's clothes, and she was a great leader, so it will take some time before they get another. Everything is quiet now.

A telegram has just arrived, stating "True declared. War in Manchuria ceases pending results of peace negotiations." But you will hear of this long before you get this letter. We also just heard that the Russian War ship had all their breech blocks and connecting rods taken from them and the "Ohio" is guarding them.

I wrote to state we relieved the 12th Cavalry, which goes to Fort Ogletrope, Ga.

IRVING L. LORING.

Can We Have Better Roads?

We were much interested to read in last week's ADVERTISER the very timely article on planting and preserving shade trees here in the state of Maine. Because the movement had been started in our neighborhood, New Hampshire, that we might well profit by it. It is to have a competent State engineer make an intelligent survey of our roads on which our State and town money is to be expended and then work out the survey. The roads might be widened, graded and straightened; gravel or macadamized roads might be put, a little at a time; culverts put in as necessary.

It seems to most of our taxpayers that if the money expended on our roads in all the years past had been expended with some sort of an intelligent system our roads throughout the State might be now boulevards. "It is never too late to mend." We cannot make an improvement on what is already done. But from now forward we can start in with some sort of an intelligent system on an intellectual system.

We would like to hear from practical road builders in our county—and there are few men but what have taken a hand in road-building what they think about it. Can our highways be made better with the amount of money expended on them if a State surveyor, who knows his business, lays out the work and competent workmen carry out the survey? Can our highways be made better by having some one take advantage of the unsightly bushes and allowing shade trees to grow at regular intervals along the sides?

STOP, WOMAN!

AND CONSIDER
THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolving to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience will take advantage of your generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

Remarks.....Walter Hobbs
Election of officers.....
Music.....America.....

The program was very interesting. The flag drill this and winter's drifting snows. It held the place, though rude, unkempt and drear.

Yet 'twixt its rough walls carved with fond names o'er
How fled the days so deeply glad and fair!
How light the tasks, encouraged with due praise!

What soft content, all free from wrangling
And cool calm sleep, blindman's bluff and tag
Regaled the all too shortened hour of noon,
And snow for noisy rout and Bunker Hill
The patriotic spirit kept in tune.

Around the glow and flame of monstrous fires
That up the chimney's throat flared high in
gales.
In winter days the lasses coned and wrought
The simple tasks, the samplers' silken tales.
And friendships, callow loves here waxed and
waned.

From year to year, forever newly fond,
Save when some lad and lass were true to each
Through all the after years in sacred bond.
Anon a change came o'er the young place,
As changes come to all the works of man.
Bearing its faiths, its loves, tradition's magic
lore,
The schoolhouse journeyed down that leafy
lane.

Yet halted midway as if loath to place
A longer distance 'twixt the new and old,
And once again took up its pleasant tasks,
And once again tradition's lore retold.
But not for long its venturesome spirit strayed;
For, like its children, severed once from
home,
It gathers courage as it pushes forth
And rears the stirring thrill once more to
roam.

Till here the rippling lake it stands,
In grove of shadowy green has come to rest:
Ample content, in modest pride serene,
Feeling in truth the last years are the best.
The loon's lone cry, the thrush's mellow song
The moon's long golden path from shore to
shore.
The skater's steady ring, the paddler's plash,
All add their charms to charms most sweet
before.

Within, without a pleasant harmony
Pervades the place, each treasure new en-
gaged.
The spotless wall, the cleanly mind as well
Announces the progress of the later years.
Few are the comrades, numbered fat and wide,
Who gathered once beneath those ancient
eaves—
The silvered hair, the faltering step and slow
Proclaim that time has turned us many
leaves.

And there are some forever absent, whom
The wide dark vale forever from us bars;
They, brave and strong, gave up the joys of
life
And turned glad faces toward the silent
stars.

In visions yet we see their forms of grace,
Far off we hear their voices soft and low;
With them we traverse wood paths green and
dewy.
Or wander where the yellow violets blow.
Oh, dear departed days! How sad, yet sweet,
Thy memories haud through years of joy or
pain!

Bringing to life's dull round a lingering thrill,
Waiting us fragrance of our youth again.
Still let us cherish long and well the old,
So let us foster all the high and true,
Forgetting not the trust now in other hands,
Remembering to be loyal to the new.

DENMARK.

Old Folks' Concert.

The young ladies and gents of this place held an old folks' concert at Old Folks' hall, Aug. 16. The hall was filled to overflowing.

The concert was a great success and the old-time costumes created much merriment with repeated applause. Then the farce, "Aunt Melibab's Scientific Experiment," was presented and well received. After the entertainment a fine supper was served in the dining-room and some two hundred were fed, and later ice cream and cake were served. The receipts of the evening were sixty-three dollars and a grand, good time which came last but not least.

Mrs. J. W. Crawford nee Lillian Smith is quite sick at her father's, C. B. Smith's.

We have more city boarders this summer than ever and all seem well pleased with the scenery and the entertainment they receive.

C. B. Smith and J. W. Crawford of the Lowell Water Board went to Fryeburg, Saturday, and took in all the wonderful sights and scenes of that town, a big day's work they thought.

The apple crop is next to nothing this year. Farmers are done with upland haying and report a less than average crop and meadows are light and very sandy as they have been flowed.

The Congregational circle met last week with Mrs. C. B. Smith and daughters. Some forty were present and seated at supper. The evening was spent in a very enjoyable way with games and music, both vocal and instrumental, and a goodly sum was presented.
